CANADIAN AERONAUTICS AND SPACE JOURNAL

Index to Volume 36
1990

Number 1 – March . . . . . pp. 1-52
Number 2 – June . . . . . pp. 53-108
Number 3 – September pp.109-184
Number 4 – December pp.185-256

A

A Comparative Analysis of Loran-C and GPS for Land Vehicle Navigation in Canada: G. Lachapelle, B. Townsend 29
Aerodynamic Design of Low-Drag Fuselages: R.H. Wickens 189
Aerodynamics and Control of a Remotely-Piloted Underwater Towed Vehicle, The: David Hopkin, Michael Davies, Ian Gartshore 122
Aerodynamics Effects on Aircraft External Stores in the NAE Trisonic Blowdown Wind Tunnel, Measurements of: D. Brown, F.A. Ellis, J.J. Bureau . . 135
Aguero, A., P. Lowden, D. Nagy, S. Holliday: Development of Erosion Resistant Coatings for Compression Airfoils 24
Airfoil, Flow Separation on a Supercritical: B.H.K. Lee . 81
Andrews, R.G., W.G. Richarz: On Sound-Induced Vibration Levels in Micro-Gravity Environments 97
An Integral Method for Transonic Flows: C. Masson, I. Paraschivoiu 18
Annual General Meeting 170
Annual Report of Council 174
Application of 3-D Flow Analysis to the Design of a High Work Transonic Turbine: M. El-Fouly, H. Moustapha 90
Application of the KTRAN Transonic Small Disturbance Code to the Complete CF-18 Aircraft with Stores: P. Piperni, F. Kafyeke 153
A Review of High-Performance Thermoplastic Resins and Their Composites: S. Béland, S. Lee, R.F. Scott . . 202
Auditor's Report 177

B

Béland, S., S. Lee, R.F. Scott: A Review of High-Performance Thermoplastic Resins and Their Composites 202
Blisk Rotors, Fracture Mechanics Assessment of EB-Welded: M. Hongoh, R.N. Tadros 4
Book Reviews 38
101
248
Brown, D., F.A. Ellis, J.J. Bureau: Measurements of Aerodynamics Effects on Aircraft External Stores in the NAE Trisonic Blowdown Wind Tunnel 135
Bureau, J.J., D. Brown, F.A. Ellis: Measurements of Aerodynamics Effects on Aircraft External Stores in the NAE Trisonic Blowdown Wind Tunnel 135

C

Canadian Aerospace Abstracts 37
100
168
247
CASI Log 40
102
169
249
CF-18 Aircraft with Stores, Application of the KTRAN Transonic Small Disturbance Code to the Complete: P. Piperni, F. Kafyeke 153
Coatings for Compression Airfoils, Development of Erosion Resistant: P. Lowden, D. Nagy, S. Holliday, A. Aguero 24
Combustor, Three-Dimensional Isothermal Flow Modelling of a Gas-Turbine, Reverse-Flow Annular: M.K.Y. Lai 230
Composites, A Review of High-Performance Thermoplastic Resins and Their: S. Béland, S. Lee, R.F. Scott 202

D

Dash 8 Series 300, Development of the Stall Warning/Stick Pusher System for the Boeing/de Havilland: Allen B. Paige 112

Davies, Michael, David Hopkin, Ian Gartshore: The Aerodynamics and Control of a Remotely-Piloted Underwater Towed Vehicle 122
Development of Erosion Resistant Coatings for Compression Airfoils: P. Lowden, D. Nagy, S. Holliday, A. Aguero 24
Development of the Stall Warning/Stick Pusher System for the Boeing/de Havilland Dash 8 Series 300: Allen B. Paige 112
Dorner, W., N.J. Marchand: The Mechanical Processes of Thermal Fatigue Degradation in Cast Turbine Blades 72

E

El-Fouly, M., H. Moustapha: Application of 3-D Flow Analysis to the Design of a High Work Transonic Turbine 90
Ellis, F.A., D. Brown, J.J. Bureau: Measurements of Aerodynamics Effects on Aircraft External Stores in the NAE Trisonic Blowdown Wind Tunnel 135
Euler and Navier-Stokes Computations for Airfoil Geometries Using Unstructured Meshes: D.J. Mavriplis 62
Euler Computations, Low Mach Number: D.W. Zingg .. 146

F

Finite Element Simulations of Unsteady Two-Dimensional Incompressible Viscous Flows: K.F. Tchon, I. Paraschivoui 236
Flow Modelling of a Gas-Turbine, Reverse-Flow Annular Combustor, Three-Dimensional Isothermal: M.K.Y. Lai 230
Forum: Canadian Society of Aerospace Medicine 47
Flow Separation on a Supercritical Airfoil: B.H.K. Lee .. 81
Fracture Mechanics Assessment of EB-Welded Blisk Rotors: M. Hongoh, R.N. Tadros 4
Fuselages, Aerodynamic Design of Low-Drag: R.H. Wickens 189

G

Gartshore, Ian, David Hopkin, Michael Davies: The Aerodynamics and Control of a Remotely-Piloted Underwater Towed Vehicle 122
Gas-Turbine, Reverse-Flow Annular Combustor, Three-Dimensional Isothermal Flow Modelling of a: M.K.Y. Lai 230
GPS for Land Vehicle Navigation in Canada, A Comparative Analysis of Loran-C and: G. Lachapelle, B. Townsend 29

H

Hawthorne, H.M., J. Kavanagh: The Tribology of Space Mechanism Friction Brake Materials 57
Holliday, S., P. Lowden, D. Nagy, A. Aguero: Development of Erosion Resistant Coatings for Compression Airfoils 24
Hongoh, M., R.N. Tadros: Fracture Mechanics Assessment of EB-Welded Blisk Rotors 4
Hopkin, David, Michael Davies, Ian Gartshore: The Aerodynamics and Control of a Remotely-Piloted Underwater Towed Vehicle 122

K

Kafyeke, F., P. Piperni: Application of the KTRAN Transonic Small Disturbance Code to the Complete CF-18 Aircraft with Stores 153
Kavanagh, J., D.G. Zimcik: Material Requirements for the Space Station Mobile Servicing System 11
Kavanagh, J., H.M. Hawthorne: The Tribology of Space Mechanism Friction Brake Materials 57
KTRAN Transonic Small Disturbance Code to the Complete CF-18 Aircraft with Stores, Application of the: P. Piperni, F. Kafyeke 153

L

Lachapelle, G., B. Townsend: A Comparative Analysis of Loran-C and GPS for Land Vehicle Navigation in Canada 29
Lai, M.K.Y.: Three-Dimensional Isothermal Flow Modelling of a Gas-Turbine, Reverse-Flow Annular Combustor 230
Lee, B.H.K.: Flow Separation on a Supercritical Airfoil . 81
Lee, S., S. Béland, R.F. Scott: A Review of High-Performance Thermoplastic Resins and Their Composites 202
Lowden, P., D. Nagy, S. Holliday, A. Aguero: Development of Erosion Resistant Coatings for Compression Airfoils 24
Low Mach Number Euler Computations: D.W. Zingg ... 146

M

Mach Number Euler Computations, Low: D.W. Zingg ... 146
Marchand, N.J., W. Dorner: The Mechanical Processes of Thermal Fatigue Degradation in Cast Turbine Blades 72
Masson, C., I. Paraschivoiu: An Integral Method for Transonic Flows 18
Material Requirements for the Space Station Mobile Servicing System: D.G. Zimcik, J. Kavanagh 11
Materials, The Tribology of Space Mechanism Friction Brake: H.M. Hawthorne, J. Kavanagh 57
Mavriplis, D.J.: Euler and Navier-Stokes Computations for Airfoil Geometries Using Unstructured Meshes ... 62
Measurements of Aerodynamics Effects on Aircraft External Stores in the NAE Trisonic Blowdown Wind Tunnel: D. Brown, F.A. Ellis, J.J. Bureau 135

Micro-Gravity Environments, On Sound-Induced Vibration Levels in: W.G. Richarz, R.G. Andrews ... 97
Moustapha, H., M. El-Fouly: Application of 3-D Flow Analysis to the Design of a High Work Transonic Turbine ... 90
Multigrid Calculations of 3-D Turbulent Viscous Flows: Jeffrey W. Yokota ... 213

N

Nagy, D., P. Lowden, S. Holliday, A. Aguero: Development of Erosion Resistant Coatings for Compression Airfoils ... 24
Navier-Stokes Computations for Airfoil Geometries Using Unstructured Meshes, Euler and: D.J. Mavriplis 62

O

On Sound-Induced Vibration Levels in Micro-Gravity Environments: W.G. Richarz, R.G. Andrews ... 97

P

Paige, Allen B.: Development of the Stall Warning/Stick Pusher System for the Boeing/de Havilland Dash 8 Series 300 ... 112
Paraschivoiu, I., C. Masson: An Integral Method for Transonic Flows ... 18
Paraschivoui, I., K.F. Tchon: Finite Element Simulations of Unsteady Two-Dimensional Incompressible Viscous Flows ... 236
Parkinson, G.V.: The Tolerant Tunnel – Concept and Performance ... 130
Piperni, P., F. Kafyeke: Application of the KTRAN Transonic Small Disturbance Code to the Complete CF-18 Aircraft with Stores ... 153
Powerplant Development at Pratt & Whitney Canada, Inc. – The Rupert Turnbull Lecture, 1990: E.L. Smith . 224
Pratt & Whitney Canada, Inc. – The Rupert Turnbull Lecture, 1990, Powerplant Development at: E.L. Smith 124
President's Message, The ... 56

R

Resins and Their Composites, A Review of High-Performance Thermoplastic: S. Béland, S. Lee, R.F. Scott ... 202
Richarz, W.G., R.G. Andrews: On Sound-Induced Vibration Levels in Micro-Gravity Environments 97

S

Scott, R.F., S. Béland, S. Lee: A Review of High-Performance Thermoplastic Resins and Their Composites ... 202
Smith, E.L.: Powerplant Development at Pratt & Whitney Canada, Inc. – The Rupert Turnbull Lecture, 1990 ... 224
Space Mechanism Friction Brake Materials, The Tribology of: H.M. Hawthorne, J. Kavanagh ... 57
Space Station Mobile Servicing System, Material Requirements for the: D.G. Zimcik, J. Kavanagh ... 11
Stall Warning/Stick Pusher System for the Boeing/de Havilland Dash 8 Series 300, Development of the: Allen B. Paige ... 112

T

Tadros, R.N., M. Hongoh: Fracture Mechanics Assessment of EB-Welded Blisk Rotors ... 4
Tchon, K.F., I. Paraschivoui: Finite Element Simulations of Unsteady Two-Dimensional Incompressible Viscous Flows ... 236
The Aerodynamics and Control of a Remotely-Piloted Underwater Towed Vehicle: David Hopkin, Michael Davies, Ian Gartshore ... 122
The Mechanical Processes of Thermal Fatigue Degradation in Cast Turbine Blades: N.J. Marchand, W. Dorner ... 72
Thermal Fatigue Degradation in Cast Turbine Blades, The Mechanical Processes of: N.J. Marchand, W. Dorner ... 72
The Rupert Turnbull Lecture, 1990, Powerplant Development at Pratt & Whitney Canada, Inc. –: E.L. Smith ... 224
The Tolerant Tunnel – Concept and Performance: G.V. Parkinson ... 130
The Tribology of Space Mechanism Friction Brake Materials: H.M. Hawthorne, J. Kavanagh ... 57
Three-Dimensional Isothermal Flow Modelling of a Gas-Turbine, Reverse-Flow Annular Combustor: M.K.Y. Lai ... 230
Townsend, B., G. Lachapelle: A Comparative Analysis of Loran-C and GPS for Land Vehicle Navigation in Canada ... 29
Transonic Flows, An Integral Method for: C. Masson, I. Paraschivoiu ... 18
Tunnel – Concept and Performance, The Tolerant: G.V. Parkinson ... 130
Tunnel, Measurements of Aerodynamics Effects on Aircraft External Stores in the NAE Trisonic Blowdown Wind: D. Brown, F.A. Ellis, J.J. Bureau ... 135
Turbine Blades, The Mechanical Processes of Thermal Fatigue Degradation in Cast: N.J. Marchand, W. Dorner ... 72
Turbine, Application of 3-D Flow Analysis to the Design of a High Work Transonic: M. El-Fouly, H. Moustapha 90

V

Viscous Flows, Finite Element Simulations of Unsteady Two-Dimensional Incompressible: K.F. Tchon, I. Paraschivoui 236
Viscous Flows, Multigrid Calculations of 3-D Turbulent: Jeffrey W. Yokota 213

W

Wickens, R.H.: Aerodynamic Design of Low-Drag Fuselages 189

Y

Yokota, Jeffrey W.: Multigrid Calculations of 3-D Turbulent Viscous Flows 213

Z

Zimcik, D.G., J. Kavanagh: Material Requirements for the Space Station Mobile Servicing System 11
Zingg, D.W.: Low Mach Number Euler Computations .. 146
